

PRESS RELEASE

Kornelius Thimm joins the Management Board of the Thimm Group

Northeim, 08/02/2017: Kornelius Thimm was appointed to the Management Board of the Thimm Group on 1 February 2017. The 39-year-old is thus expanding the current management team Mathias Schliep (CEO) and Jens Fokuhl (CFO). As COO (Chief Operating Officer), he will be responsible for the operating business of the Thimm Group, which includes production, engineering, purchasing and logistics.

Kornelius Thimm is a graduate mechanical engineer engineering and a Master of Business Administration (MBA). In his twelve-year career, he initially led development projects in the BMW Group in Munich (Germany) and Detroit (USA). Subsequently, he was responsible for business development at Conprinta Printing Technology.

Most recently, Kornelius Thimm was the Director Customer Support at Beumer Maschinenfabrik, a leading international manufacturer of intralogistics. He was responsible for the organization and distribution of customer support in Europe, the Middle East and Africa (EMEA). For the Beumer Group, he was also liable for the strategic development of the worldwide customer support organization and its results.

Since 2013, Kornelius Thimm has been attended the Thimm Group's development in the company's advisory board.

Kornelius Thimm
